ABOUT ME

Web Developer with 1+ year of experience building modern, scalable web applications. Began with a 3-month internship, working on Laravel-based projects using HTML, CSS, JavaScript, and MySQL. Continued as a freelance developer for 5-6 months, delivering custom web solutions. Currently a Front-End Developer at PaperToPixel, specializing in React.js and contributing to 15+ production-level projects, focused on high-performance, responsive interfaces with clean, maintainable code. Quick learner with a strong ability to deliver reliable solutions in fast-paced environments.

EDUCATION

BACHELORS OF COMPUTER SCIENCE

University of central punjab, Lahore | 2024

EXPERIENCE

STAR AUTOMATION

2024

Completed a 3-month internship gaining hands-on experience in Laravel-based web development, working with HTML, CSS, JavaScript, and MySQL to support backend functionality and database operations.

PAPERTOPIXEL

2024-PRESENT

Currently working as a Front-End Developer, specializing in React.js to build responsive, high-performance web interfaces. Collaborate with the development team to implement modern UI components and maintain clean, scalable codebases.
